#### INDEPENDENT AUDITOR'S REPORT

Board of Directors Kleinwood Municipal Utility District Harris County, Texas

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities and each major fund of Kleinwood Municipal Utility District (the "District") as of and for the year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of March 31, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors Kleinwood Municipal Utility District

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the Water District Financial Management Guide is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide an assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

July 27, 2023

Management's discussion and analysis of the financial performance of Kleinwood Municipal Utility District (the "District") provides an overview of the District's financial activities for the year ended March 31, 2023. Please read it in conjunction with the District's financial statements.

#### **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective like that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all the District's assets, liabilities, deferred inflows of resources, and deferred outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

#### **FUND FINANCIAL STATEMENTS**

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has three governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, operating costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

#### FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

#### NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

#### OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI") and other supplementary information. A budgetary comparison schedule is included as RSI for the General Fund.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$9,720,365 as of March 31, 2023. A portion of the District's net position reflects its net investment in capital assets (land, buildings and equipment, as well as the water and wastewater facilities, less any debt used to acquire those assets that is still outstanding). The following is a comparative analysis of government-wide changes in net position:

#### FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of March 31, 2023, was \$8,029,056, an decrease of \$171,779 from the prior fiscal year.

The General Fund fund balance increased by \$649,524, primarily due to property tax revenues, sales tax revenues and service revenues exceeding operating costs.

The Debt Service Fund fund balance decreased by \$12,221, primarily due to the structure of the District's outstanding debt service requirements.

The Capital Projects Fund fund balance decreased by \$809,082, primarily due to the Sanitary Sewer Rehab Phase 2 construction costs.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors adopted a General Fund budget for the current fiscal year. Actual revenues were \$546,878 more than budgeted revenues and actual expenditures were \$305,498 more than budgeted expenditures which resulted in a positive variance of \$241,380.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED MARCH 31, 2023

Net Change in Fund Balances - Governmental Funds	\$ (171,779)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report tax revenues when collected. However, in the Statement of Activities, revenue is recorded in the accounting period for which the taxes are levied.	36,391
Governmental funds report penalty and interest revenue on property taxes when collected. However, in the Statement of Activities, revenue is recorded when penalties and interest are assessed.	5,732
Governmental funds report the receipt of capital contributions as revenues in the period received. However, in the Statement of Net Position, repayments reduce long-term receivables.	(58,745)
Governmental funds do not account for depreciation. However, in the Statement of Net Position, capital assets are depreciated and depreciation expense is recorded in the Statement of Activities.	(408,685)
Governmental funds report capital expenditures as expenditures in the period purchased. However, in the Statement of Net Position, capital assets are increased by new purchases and the Statement of Activities is not affected.	917,306
Governmental funds report bond principal payments as expenditures. However, in the Statement of Net Position, bond principal payments are reported as decreases in long-term liabilities.	820,000
Governmental funds report interest expenditures on long-term debt as expenditures in the year paid. However, in the Statement of Net Position, interest is accrued on the long-term debt through fiscal year-end.	 2,992
Change in Net Position - Governmental Activities	\$ 1,143,212

#### NOTE 1. CREATION OF DISTRICT

Kleinwood Municipal Utility District was created by order of the Texas Water Rights Commission, predecessor to the TCEQ, dated May 3, 1972. The District is vested with all of the rights, privileges, authority, and functions conferred by the general laws of the State applicable to municipal utility districts, including without limitation those conferred by Chapters 49 and 54, Texas Water Code, as amended. The District is empowered to purchase, construct, operate, acquire, own, and maintain all water and wastewater facilities, improvements and the control and diversion of storm water. The District is additionally empowered to establish, operate and maintain a fire department, independently or with one or more other conservation and reclamation districts, and to issue bonds for such purposes, after approval by the City, the TCEQ and the District's voters of the District's plans in such regard. The District may also provide for waste collection and disposal service, operate and maintain recreational facilities and contract for its own peace officers with power to make arrests when necessary to prevent or abate the commission of any offense against the rules of the District or District property. The District is subject to the continuing supervisory jurisdiction of the TCEQ.

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission. The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units. The District has entered into an agreement for wastewater treatment with other utility districts as described in Note 10.

#### Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting ("GASB Codification"). The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined in the following paragraphs.

## **NOTE 2. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

#### <u>Financial Statement Presentation</u> (Continued)

- Net Investment in Capital Assets This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

#### Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenue and expense of the government-wide Statement of Activities.

#### **Fund Financial Statements**

The District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Governmental Funds Balance Sheet and a Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances.

#### **NOTE 2. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

#### Governmental Funds

The District has three governmental funds and considers each to be a major fund.

<u>General Fund</u> - To account for resources not required to be accounted for in another fund, customer service revenues, operating costs and general expenditures.

<u>Debt Service Fund</u> - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

<u>Capital Projects Fund</u> - To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

#### **Basis of Accounting**

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectable within 60 days after year-end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the period and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or use. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

As of March 31, 2023, the Debt Service Fund owed the General Fund \$34,316 for maintenance tax collections and bond issuance costs and the General Fund owed the Capital Projects Fund \$11,550 for capital costs.

# NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost greater than \$5,000 and a useful life over two years. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation over periods ranging from 5 to 45 years.

#### **Budgeting**

An annual unappropriated budget is adopted for the General Fund by the District's Board of Directors. The budget is prepared using the same method of accounting as for financial reporting. The original General Fund budget for the current year was not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the budgeted amounts compared to the actual amounts of revenues and expenditures for the current year.

#### Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are wages subject to federal income tax withholding for payroll tax purposes only.

#### Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

#### **NOTE 2. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

#### Measurement Focus (Continued)

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources.

Fund balances in governmental funds are classified using the following hierarchy:

*Nonspendable*: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

*Restricted*: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. The District does not have any assigned fund balances.

*Unassigned*: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

#### **Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

	\$ 9,894,992	\$	2,233,166	\$ 12,128,158

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount, and are further payable from the net revenues from the operation of the District's waterworks and sanitary sewer systems.

The District levied an ad valorem debt service tax rate of \$0.260 per \$100 of assessed valuation, which resulted in a tax levy of \$1,144,237 on the adjusted taxable valuation of \$440,092,882 for the 2022 tax year. All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

The District has \$16,545,000 of authorized but unissued bonds for water, sewer and drainage facilities and \$8,486,584 of authorized but unissued bonds for refunding purposes.

#### NOTE 4. SIGNIFICANT BOND ORDER AND LEGAL REQUIREMENTS

The bond orders state that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data to certain information repositories. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

The District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the Bonds be rebated to the federal government, within the meaning of Section 148(f) of the Internal Revenue Code. The minimum requirement for determination of the rebatable amount is on each five-year anniversary of the bonds.

#### NOTE 5. DEPOSITS AND INVESTMENTS

#### **Deposits**

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$503,692 and the bank balance was \$602,777. The District was not exposed to custodial credit risk at year-end.

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position for the year ended March 31, 2023, as listed below:

	Cash		
GENERAL FUND	\$	302,168	
DEBT SERVICE FUND		172,700	
CAPITAL PROJECTS FUND		28,824	
TOTAL DEPOSITS	\$	503,692	

#### **NOTE 5. DEPOSITS AND INVESTMENTS** (Continued)

#### Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Investors, Inc. manages the daily operations of the pool under a contract with the Comptroller. TexPool measure all of its portfolio assets at amortized cost. The District also measures its investments in TexPool at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from TexPool.

The District also invests in the Texas Short Term Asset Reserve Program ("TexSTAR"), an external public funds investment pool that is not SEC-registered. J. P. Morgan Investment Management Inc. provides investment management and Hilltop Securities Inc., provides participant services and marketing under an agreement with the TexSTAR Board of Directors. Custodial, fund accounting and depository services are provided by JPMorgan Chase Bank, N.A. and/or its subsidiary J.P. Morgan Investors Services Co. Investments held by TexSTAR are marked to market daily. The investments are considered to be Level I investments because their fair value is measured by quoted prices in active markets. The fair value of the District's position in the pool is the same as the value of the pool shares. There are no limitations or restrictions on withdrawals from TexSTAR.

## **NOTE 5. DEPOSITS AND INVESTMENTS** (Continued)

Investments (Continued)

As of March 31, 2023, the District had the following investments and maturities:

Funds and Investment Type	Fair Value	Maturities of Less Than 1 Year
mvestment Type	Tun vuiue	1 1 001
GENERAL FUND		
TexPool	\$ 2,190,864	\$ 2,190,864
TexSTAR	2,833,451	2,833,451
DEBT SERVICE FUND		
TexPool	1,073,893	1,073,893
TexSTAR	557,465	557,465
CAPITAL PROJECTS FUND		
TexPool	975,271	975,271
TOTAL INVESTMENTS	\$ 7,630,944	\$ 7,630,944

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At March 31, 2023, the District's investments in TexPool and TexSTAR were rated AAAm by Standard and Poor's.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investments in TexPool and TexSTAR to have maturities of less than one year due to the fact the share positions can usually be redeemed each day at the discretion of the District, unless there have been significant changes in values.

#### Restrictions

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and cost of assessing and collecting taxes.

All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

#### NOTE 6. CAPITAL ASSETS

Capital asset activity for the year ended March 31, 2023, is as follows:

#### NOTE 7. MAINTENANCE TAX

On December 4, 1974, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$0.25 per \$100 of assessed valuation. During the year ended March 31, 2023, the District levied an ad valorem maintenance tax rate of \$0.127 per \$100 of assessed valuation, which resulted in a tax levy of \$558,916 on the adjusted taxable valuation of \$440,092,882 for the 2022 tax year.

#### NOTE 8. NORTH HARRIS COUNTY REGIONAL WATER AUTHORITY

The District is located within the boundaries of the North Harris County Regional Water Authority (the "Authority"). The Authority's purpose is to provide for the conservation, preservation, protection, recharge, and reduction of groundwater withdrawals. The Authority currently charges \$4.10 per 1,000 gallons of water for pumpage fees and \$4.55 per 1,000 gallons of purchased surface water. During the current fiscal year, the District incurred costs totaling \$543,799 for pumpage fees and \$718,219 for purchased surface water.

# NOTE 8. NORTH HARRIS COUNTY REGIONAL WATER AUTHORITY (Continued)

#### Capital Contribution Receivable

The District entered into a Capital Contribution Contract with the Authority in which the District paid \$1,213,095 to the Authority. During the current fiscal year, the District received credits of \$88,406 including a return of principal of \$51,383. Future repayments of capital contributions are as follows:

Fiscal Year	I	Principal	Interest	Total
2024	\$	54,043	\$ 34,363	\$ 88,406
2025		56,840	31,566	88,406

2034		18,634	 127	 18,761
	\$	703,999	\$ 198,822	\$ 902,821

#### Chloramine Conversion Reimbursement

The Authority required the District to convert its water systems to chloramine disinfection for as long as it is connected to the Authority's system. The District has completed its chloramine conversion system which included reimbursable costs of \$300,627. The Authority calculated the reimbursement at 6% interest over a 30-year period. The District began receiving chloramine conversion credits on its March 2011 Authority billing. Total credits earned in the current fiscal year were \$21,840. Of this amount, \$7,363 was a return of principal with the balance being applicable to interest. The following is a schedule of the remaining chloramine conversion credits to be received under the terms of the agreement.

Fiscal Year	F	Principal		Interest	 Total
2024	\$	7,816	\$	14,024	\$ 21,840

#### NOTE 9. STRATEGIC PARTNERSHIP AGREEMENT

Effective December 1, 2010, the District entered into a Strategic Partnership Agreement with the City of Houston, Texas. The agreement provides that in accordance with Subchapter F of Chapter 43 of the Local Government Code and Act, the City shall annex a tract of land defined as the "Subject Tract" for the limited purposes of applying the City's Planning, Zoning, Health, and Safety Ordinances within the Subject Tract within the boundaries of the District. The City imposes a sale and use tax within the boundaries of the Subject Tract at the rate of one percent or the rate specified under the future amendments to Chapter 321 of the Tax Code. The City pays the District an amount equal to one-half of all sales and use tax revenues generated within the boundaries of the Subject Tract. During the year ended March 31, 2023, the District recorded sales tax revenues of \$371,680 from the City of Houston.

#### NOTE 10. KLEINWOOD JOINT POWERS BOARD

The District is a participant in the Kleinwood Regional Wastewater Treatment Plant ("Plant") which provides wastewater treatment for the District and the following participants: Cy-Champ Public Utility District ("Cy-Champ"), Harris County Water Control & Improvement District No.114, Klein Independent School District, Cypress Forest Public Utility District ("Cypress Forest"), Louetta North Public Utility District and Champions Municipal Utility District ("Champions"). The agreement creating the Kleinwood Joint Powers Board was effective April 9, 1992, and subsequently amended on June 1, 1993, September 8, 1997, July 25, 2005, September 9, 2013, and March 16, 2017. Unless terminated earlier by mutual agreement of all the participants, the agreement will continue in force and effect until April 9, 2047.

The operating expenses of the Plant are allocated based on each participant's number of connections. Capital costs are paid by each participant based on their ownership interest in the Plant. The District's capacity ownership is 15%. Operating expenses of \$178,146 were incurred by the District for the year ended March 31, 2023. The following summary financial data of the Plant is presented for the year ended May 31, 2022.

#### NOTE 11. WATER SUPPLY AND WASTE DISPOSAL AGREEMENTS

On December 9, 1982, the District entered into a contract with Cypress Forest Public Utility District to provide water and sanitary sewer services to an 8-acre tract within the District's boundaries. The term of the contract is 40 years and may be renewed on a year-to-year basis after that date. Any party may terminate the contract by giving a one-year written notice of termination. The District pays Cypress Forest an amount equal to 70% of the ad valorem taxes collected on the tract by March 1 of each year during the contract.

On March 18, 1987, the District entered into a contract with Harris County Municipal Utility District. No. 24 ("District No. 24") to provide water and sanitary sewer services to a 13-acre tract within the District's boundaries. The term of the contract is 40 years and may be renewed on a year-to-year basis after that date. Any party may terminate the contract by giving one-year written notice of termination. The District pays District No. 24 an amount equal to 70% of the ad valorem taxes collected on the tract by March 1 of each year during the contract.

On April 16, 1989, the District entered into an emergency water supply contract with Cypress-Klein Utility District. This contract was amended on November 14, 2016. The contract provides for emergency water to be provided at a cost per 1,000 gallons of water of \$0.50 plus the surface water fee of the North Harris County Regional Water Authority for a period not to exceed 30 days. The contract is in effect until December 31, 2029, and will automatically renew each January 1 unless otherwise terminated by either party.

On October 7, 1976, the District entered into an emergency water supply contract with Harris County Water Control and Improvement District No. 114. This contract was amended on December 12, 2016. The contract provides for emergency water received to be repaid in kind or repaid at the rate paid by the supplying district per 1,000 gallons to purchase surface water plus an additional \$0.25 per 1,000 gallons of water taken.

#### NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.
